

NIBIN KURIAN

Frontend Developer | UI Engineer | Design Systems | Component Libraries

Kottayam, Kerala | nibinkuriannk@gmail.com | 9961689907 | linkedin.com/in/nibin-kurian | github.com/nibin-org

PROFESSIONAL SUMMARY

Frontend Developer with 5.6+ years of experience building scalable web applications using React, Next.js, HTML5, and SASS. Specialized in design systems, token-driven UI architecture using Figma, and reusable component libraries documented with Storybook. Proven track record of improving Lighthouse performance scores from 60 to 95. Strong focus on performance optimization, SEO compliance, and cross-functional collaboration in Agile environments.

TECHNICAL SKILLS

Markup & Styling: HTML5, CSS3, SASS/SCSS, TailwindCSS, GSAP, AOS, Swiper.js

UI Development: React.js (component-level), Next.js (component-level)

Design Systems: Figma, Figma Design Tokens, Token-driven Architecture, Storybook, Component Libraries

Tools & Workflow: Git, GitHub, ClickUp, Linear, Slack

Optimization: Lighthouse Audits, SEO Best Practices, Responsive & Mobile-First Design

Methodologies: Agile, Sprint Meetings, Team Collaboration

PROFESSIONAL EXPERIENCE

Frontend Developer / UI Engineer

Quintet Solutions | August 2023 - Present

- Architected a scalable, token-driven design system using Figma tokens via a GitHub-based pipeline, ensuring consistent, reusable UI across product applications.
- Developed and maintained a reusable React/Next.js component library in Storybook, improving development efficiency and UI consistency.
- Structured scalable SCSS architecture for large-scale applications, reducing styling conflicts and improving maintainability.
- Optimized frontend performance following Lighthouse best practices, improving score from 60 to 95 for page speed and SEO compliance.
- Worked in Agile environment using ClickUp and Linear for sprint meetings and structured feature delivery; collaborated via Slack for day-to-day team communication.

UI/UX Developer

Intersmart Solutions | August 2022 - August 2023

- Delivered 50+ fully responsive static and e-commerce websites with cross-browser and cross-device compatibility.
- Built high-fidelity UI layouts using HTML5, CSS3, SASS; implemented interactive animations using GSAP.
- Ensured mobile-first responsive design across all devices and screen sizes.

UI/UX Developer

Pentacodes IT Solutions (Formerly Pemmin Dyad) | January 2022 - August 2022

- Delivered 20+ static and e-commerce web projects; introduced SASS-based styling architecture replacing traditional CSS.
- Implemented Git version control workflow within the frontend team to streamline collaboration.

UI/UX Developer

Pemmin Dyad | August 2021 - December 2021

- Delivered 10+ projects including in-house tools; optimized existing web applications under senior mentorship.

Junior Web Developer

Medizome Healthlink India Pvt Ltd | July 2020 - July 2021

- Assisted in web development projects, maintained company websites, and recognized twice as Best Employee of the Month.
-

PROJECTS

tokvista - Open Source NPM Package

github.com/nibin-org/tokvista | npmjs.com/package/tokvista | nibin-org.github.io/tokvista | MIT License

- Conceptualized and published an open-source npm package that transforms Figma design tokens into interactive visual documentation for design systems teams.
 - Features color, spacing, typography, radius, and component token views with dark mode, keyboard search, copy-ready CSS variables, and a live interactive playground.
 - Actively maintained with AI-assisted development; includes ESM and CJS builds, unit tests (Vitest), a live demo site, and a full contributor guide.
-

EDUCATION

Engineering Diploma in Computer Engineering

Govt. Polytechnic College, Pala, Kottayam | August 2016 - May 2019 | First Class Honors (67%)
